

Andre Dos Santos – Peer Assessment for Project

Please evaluate your team member thoughtfully. Provide honest feedback based on your experience working with them.

Team Member 1: Olivia Connelly

Preparation: She was very prepared and always reachable on the phone. We had multiple zoom calls together to make sure that our project worked as intended.

Contribution: We both contributed about the same amount. She did a great job. I did more of the coding, but she still helped with it, and she did more of the paperwork like the write up and presentations.

Respect for Others' Ideas: She did very well with that and understood any technical limitations that I brought up.

Flexibility: She adapted to changes quickly and easily, even coming up with new ideas based on your feedback.
